SkoolBag allows the School to send **Push Notifications** to alert families about such things as sport cancellations, events or last minute changes to excursions/camps etc. Push Notifications are an alert/brief message that will appear on the front of your phone screen. To ensure that you are receiving Push Notifications make sure to personalise your Subscription Groups/and notification preferences and continue to review your chosen Subscription Groups as your child progresses during the school year as required, **most importantly** as your child rolls over into a new Year/Grade.

To ensure that parents do not experience an overload of unwelcome messages – particularly messages which are not directly relevant to your child – the School will endeavour to restrict the use of Push Notifications only to the following two types of messages:

- Information which is relevant to your child's Grade/Class Teacher; and
- Other urgent or important messages which are approved by the Head of Campus or his/her delegate.

Other existing communication channels will continue to be used in conjunction with SkoolBag and the Website. These include emails, paper notices (only when necessary), Twitter, Facebook and physical signage around the School.

The App is free to download with no ongoing costs.

Thank you for your continued support.
