

Academic Achievement

On behalf of the Launceston Church Grammar School community I would like to express my warm congratulations and gratitude to the Class of 2019.

Students once again achieved outstanding academic results but their legacy as a year will be defined by what they contributed to the School and wider community. It has been a delight to see Grade 12 students on a daily basis helping to run Breakfast Club at the local primary school; embracing opportunities for leadership within the School, supporting St Giles through the Walkathon through which \$37 000 was raised; and giving up their holidays to assist in the running of the Sony Christmas Camp for children with special needs.

On the sporting field, Grade 12 students were part of three State Premiership teams for 1st Cricket, 1st Boys' Hockey and 1st Girls' Soccer. On the stage, audiences were treated to a memorable musical in *The Addams Family* and through our world-class Visual Arts programme, five students produced works of art that were selected for *ArtRage*.

Having spoken to many of our Grade 12 students and families, I know they are full of gratitude to staff for the support they have received. Students have excitedly shared with me that they are comfortably able to enter their course or university of first choice.

I look forward to seeing how the Class of 2019, who collectively have come to embody courage, curiosity, creativity and compassion, continue to serve and shape our world into the future.

Richard Ford
Headmaster

Class of 2019 future focused

Will Barber
99.05

I have applied to study a Bachelor of Medicine and Surgery at UTAS. Once gaining my degree, I will apply for a residency elsewhere in Australia, to further my qualification as a surgeon.

My ultimate goal is to work as a surgeon in a hospital in Sydney, whether at a private practice or part of a larger team at a public hospital.

Henry Wu
97.25

My father went to an education festival in Beijing and met the Headmaster of Launceston Grammar. Six months later, I came to board at Launceston Grammar and have studied here for the past three and a half years.

The teaching style and environment were all that I imagined it would be in a good senior school.

The number of students in a classroom is limited, which allows the teachers to answer students' questions quickly and make sure they understand the teaching. I found it helpful that if I had any further questions on a topic, I could directly make an appointment with teachers get feedback and further learning.

I quite like living in Tasmania. I mean, the sky, the view, the scenery, everything's so beautiful and you have time to enjoy it. Also, one of the best things about living in the boarding house is you can get up at 8:15 in the morning and be in class by 8:45!

I was very pleased with my ATAR results, especially as I achieved an almost perfect score in my three Mathematics subjects. I am attending the University of Melbourne this year to study Biomedical Science and hope that this degree will give me opportunities to help people.

One day I would like to return to the School for a visit; these three and a half years have been remarkable and I will miss the precious experiences at Launceston Grammar, especially the friendships I've made.

Sarah Hope
98.75

I am moving to the mainland to study a Bachelor of Science/Doctorate of Veterinary Medicine at Murdoch University in Perth, Western Australia. I aim to be a qualified vet in five years, hopefully in the field of wildlife conservation.
