

STUDENT MOBILE PHONE AND LAPTOP AVAILABILITY

The table below is aimed to provide a brief overview of the times in which boarders have access to their mobile and laptop devices within the Launceston Grammar Boarding Community. As per our transitional philosophy, the boarders' access to devices are regulated during the early years. As they progress through the year groups, they are provided with extra opportunities to demonstrate responsible technology use.

Mobile phones and laptops are not permitted on any official interschool boarding recreational activity. Nonetheless, boarders are encouraged to take mobile phones with them when on other forms of leave from the School.
